About Elia Group

Elia Group is an international electricity transmission group acting as a catalyst for the energy transition. As a stock-listed company employing more than 4,500 people globally, we ensure that power systems evolve in line with society's and industry's needs. Through our entities Elia Transmission Belgium, 50Hertz (Germany), Elia Grid International (EGI) and WindGrid, we design, build, operate electricity systems and provide expertise to make electricity accessible, reliable and affordable for society.

Operating more than 19,600 km of high-voltage grids across Belgium and Germany, the Group plays a key role in Europe's energy backbone, supporting electrification, strengthening cross border exchanges and accelerating the transition to a more decarbonised society.

We bring power, today and tomorrow.
